

# Car Detailing for Intermediate Level

## Technical Experience Course

### Synopsis

This comprehensive automotive detailing training program spans three days, equipping participants with essential knowledge and hands-on skills required to excel in the auto detailing industry.

By the end of this intensive three-day program, participants will have a solid foundation in automotive detailing materials, techniques, and practical skills, positioning them to excel in the auto detailing industry.

### Audience

Car detailers, or anyone looking to improve their car care skills.

### Course Objective

The course objective is designed and serves as the intermediate level of car detailing, offering participants the deeper understanding of the automotive paint and interior material constructions, the market insights of the car detailing industry and the practical skills in car washing interior and exterior including polishing. The car detailing skills are needed to transform vehicles into pristine, showroom-quality masterpieces.

**Pre-requisite :**  
None

**Duration :**  
3-day (9.00am - 5.00pm)

**Course Delivery Mode :**  
Theory, Demonstration and Practical

## Course Modules
