

Car Detailing for Intermediate

Technical Experience Course

Synopsis

This comprehensive five-day automotive detailing training program is designed to provide participants with in-depth knowledge and hands-on skills required to excel in the auto detailing industry. Participants will gain a deeper understanding of automotive materials, techniques, and industry best practices while enhancing their expertise in both interior and exterior detailing.

Audience

Car detailers, automotive professionals, and individuals looking to improve their car care skills.

Course Objective

This intermediate car detailing course provides in-depth knowledge of automotive paint, interior materials, and market trends. Participants will gain hands-on experience in washing, polishing, and advanced detailing techniques to achieve showroom-quality results.

Learning Outcome

Participants will master auto detailing, from proper washing to polishing, scratch removal, and protective coatings.

Pre-requisite :

None

Duration :

5-days (9.00am - 5.00pm)

Course Delivery Mode :

Theory, Demonstration and Practical

Course Modules

DAY 1

- Understanding the basic principles of automotive paint constructions
- Differentiating conventional car washes from professional detailing services.
- Learning about the essential products used in auto detailing.

DAY 2

- Steps and precautions for professional interior car washing and detailing.
- Proper cleaning and conditioning of car seats, dashboard, and carpets.
- Effective removal of stains and odours from vehicle interiors.

DAY 3

- Steps and precautions for professional exterior car washing and detailing.
- Clay bar treatment and decontamination processes.
- Introduction to basic polishing and wax application.

DAY 4

- Hands-on practical session on "one-step" polishing for automobile front hoods.
- Application of protective coatings for long-term paint protection.

DAY 5

- Hands-on full vehicle detailing practice.
