

Paint Protection Film (PPF) Installation for Intermediate Level

Technical Experience Course

Synopsis

This comprehensive five-day training program is designed to equip participants with the essential skills and knowledge required for proficient Paint Protection Film (PPF) installation. Each day offers a structured curriculum progressing from fundamental to advanced installation techniques. Upon completion of this program, participants will emerge as skilled PPF installers, capable of delivering meticulous and high-quality installations. Their refined expertise and attention to detail will position them for success in the dynamic field of PPF installation.

Audience

New and experienced PPF installers, entrepreneurs, or anyone seeking to enhance their skills and knowledge in the field of PPF.

Course Objective

To provide a comprehensive skill set that enables participants to perform PPF installation with precision, expertise, and confidence.

Pre-requisite :

None

Duration :

5-day (9.00am - 5.00pm)

Course Delivery Mode :

Theory, Demonstration and Practical

Course Modules

Day 1

- Overview of PPF types and maintenance methods
- Knife grip techniques and basic cutting exercises (Theory, Instructor demonstration, Hands-on practice, Feedback)
- Scraping bubbles efficiently (Theory, Instructor demonstration, Hands-on practice, Feedback)

Day 2

- Handling edges and small curves (Theory, Instructor demonstration, Hands-on practice, Feedback)
- Understanding correct stretching direction for optimal results (Theory, Instructor demonstration, Hands-on practice, Feedback)

Day 3

- Step-by-step installation and precautions for headlights (Theory, Instructor demonstration, Hands-on practice, Feedback)
- Troubleshooting common installation errors

Day 4

- Step-by-step installation and precautions for side doors (Theory, Instructor demonstration, Hands-on practice, Feedback)
- Complex edge wrapping and contour fitting techniques

Day 5

- Demonstration and hands-on practice for front bumper installation (Stretching and cutting techniques)
- Full vehicle PPF application review and refinement

Learning Outcome

Master knife grip and cutting techniques, bubble removal, and handling edges and curves. Learn optimal stretching and installation for headlights, side doors, and front bumpers.
