

CAR DETAILING OPERATION LEVEL 2

Synopsis

This comprehensive 3-day program is designed to equip participants with the necessary skills to oversee and manage car detailing operations effectively. The training emphasizes supervision, quality control, coordination, and leadership in detailing services. Participants will undergo practical training covering exterior and interior detailing, engine cleaning, polishing, and coating applications, culminating in a final assessment on the third day.

Course Objective

The course objective is to equip participants with the skills and knowledge necessary to improve teamwork, enhance cooperation, cultivate an emotionally intelligent work environment, and effectively navigate diverse personality styles and perspectives.

Audience

experienced detailers pursuing supervisory roles, automotive professionals expanding expertise, business owners improving service quality, and those seeking JPK Level 2 certification.
