

CAR DETAILING OPERATION LEVEL 2

Synopsis

Car detailing program involves deep cleaning, restoration, and protection of vehicles to maintain their appearance and condition. This course equips participants with the knowledge and skills required to perform professional car detailing operations, including exterior washing, engine cleaning, interior detailing, polishing, and protective coatings. Participants will learn the correct techniques for using specialized tools, equipment, and cleaning materials while following safety procedures and industry best practices. The course aims to develop competent car detailers who meet professional standards and customer expectations in the growing automotive service industry.

Course Objective

Master car detailing techniques, use tools safely, apply polishing and coating, ensure regulatory compliance, and deliver high-quality services that meet industry standards.

Audience

Ideal for aspiring car detailers, automotive technicians, car wash workers specializing in detailing, entrepreneurs starting a detailing business, and enthusiasts seeking advanced car care skills.

Pre-requisite :

For Malaysians 16+ with basic skills and physical ability for detailing.

Duration :

7 Months

Course Delivery Mode :

lectures, workshops, case studies, hands-on training, and assessments for effective learning.
